**Date : 16.09.2021**

**Dear Nurturer,**

## **Greetings from Intelli School !**

As per the Govt. instructions, we are reopened the school for all Grades in a phased manner.

As per the survey we have recently undertaken many Parents have opted Physical School for their ward.

The Edu Dept. has recently issued a circular that only physical classes are allowed in schools.

For students who opted for Online Schooling, classes shall continue as per earlier timetable as long as possible. Physical school **Timings: 08:30 AM to 03:10 PM** Monday to Saturday for Grades 1 to 10 and Monday to Friday for K, K-1 & K-2.

## **General Instructions**

- Mask is mandatory for all.
- Students need to carry their own water bottle, hand sanitizer and a spare mask.
- Students need to carry necessary stationary.
- Students need to bring their own lunch and snacks.
- Please inform HSRM if your ward is on any medication.
- Uniform will be available in the School premises on 17th & 18th September.

## **Covid-Sanitization Protocol**

**Classrooms** - All the tables, chairs, door handles & switches sanitized four times a day. At the end of the day, the classrooms will be fumigated with non-residual disinfectant sanitizer fogging liquid.

**Common Areas and Lift** - The railings, walls, door handles, switches and frequently contacted surfaces will be sanitized five times in a day with surface cleaner.

**Restrooms** - The restrooms are sanitized after every break. The toilet seats are sanitized with Dettol. At the end of the day, the restrooms are fumigated with non-residual disinfectant sanitizer fogging liquid.

## **Transport - School Bus:**

- All buses are sanitized with fumigant after every trip.
- Drivers and attenders' temperature are screened before every trip.

Considering the harmful nature of disinfectant chemicals, the sanitization work will be scheuled when the students are not in the classroom, giving enough time for the chemicals to naturally evaporate or break down thereby reducing harmful exposure.

## **Some of the chemicals we are using are:**

- Hand Sanitizer - Liquid hand Sanitizer.
- Surface Cleaner.
- Floor Cleaners Lizol / Dettol.

## **Own Transport:**

Security personnel will check and note the temperature of the student in the student roll register. The security guard shall register the temperature instead of marking 'P' for the present in the student register. The student will be allowed to enter the school only if his/her temperature is in between 97.9°F (36.6°C) to 99°F (37.2°C).

In case your child suffers from any allergic reaction, please intimate the School at once or send us an email to **parents @ intellschool.in**.

In case of any further queries or clarifications, please connect with us.

**Thanking you**
