Dear Nurturers,

Date : 24.08.2021

**Welcome to Intelli School Communication across the Year**

I hope the first week has been a successful one for you and your families. We have had an excellent first week, with us all adjusting to new ways of working, whether face-to-face or remotely. As always, your children have done themselves proud, and been flexible, thoughtful and respectful. We're off to a great start and things will only get smoother from here on in.

The purpose of this letter is to set out some key contact points for you on how we will communicate with you over the year. Please also know that we will remain flexible, as health conditions and circumstances change across the year.

We know that your child's learning is best supported when the School's relationship is positive, and two-way. To that end we have designed a comprehensive structure, tailored to the needs of each grade, in a variety of formats, spread across the year. Ongoing, informal dialogue is, however, at least as important as any of the formal pieces, and we will contact you if we have any significant academic, social or other concern. Likewise, please do not hesitate to contact us at any point if we can assist with anything - likely via your child's mentor in the first instance.

**Getting to know High School:** We always try to respond to requests to explain the thinking behind some of our practices, so that there can be a closer alignment between the messages that students hear at home and at school. To that end, Head's of Grade run regular meetings. Where information is shared with Nurturers for a particular grade level.
